

Education and Augmented & Virtual Reality | AR & VR

AR & VR empowers **students** and **teachers** to learn through doing by creating, applying, evaluating and analyzing 3D presentations

AR & VR for Students, Academic Institutions and Teachers

1. Why AR & VR?
2. The possibilities of Fectar Studio in creating your own AR/VR experiences
3. Fectar MeetUp for Education

Why AR & VR?

Benefits for Students

Learn by doing

Create an experience in AR/VR about a subject. Learn about technology and subject simultaneously.

Learn more with less

AR/VR is engaging, interactive and immersive. Walking around a 3D environment students learn faster and remember better.

Bridge to employment

Learn today, for tomorrow.
Teach the know-how needed for future jobs.

Why AR & VR?

Benefits for Academic Institutions and Teachers

Student recruitment

Attract students with a key differentiator mechanism of higher cognitive learning.

Virtual remote learning and collaboration

Improve interaction and collaboration in remote learning.

Smart Workers for a Smart Nation

Prepare students for the upcoming Smart Worker environment.

The Fectar Platform

Fectar Studio is an AR/VR building tool for all levels of experience.

The Fectar Platform

AR/VR building tool for all levels of experience!

The Fectar platform is easy to use for everyone:

- ❖ Start with a few Images and position them how you like.
- ❖ Add a video clip and audio to make your presentation complete.
- ❖ Share your presentation with others and enjoy your first steps in AR and VR.

Are you looking for more? Then, the sky is the limit; try adding 3D models, holopresenters or 360 videos.

Up for a challenge? Start advanced 3D scene using our Unity exporter

Create a simple| Biology Presentation

Let's make a presentation
about the **Cell of a Plant**

Start with the research

Google, books, papers...

There is a lot to tell about the cells of a plant. You can display **every aspect** of the Cell. Or **focus** on a few parts.

In this example, we focus on three parts; the cell wall, the cytoplasm, and the nucleus.

The information we present:

The cell wall contains two layers. the middle lamella and the primary cell wall

The cytoplasm is the semifluid substance of a cell that is external to the nuclear membrane and internal to the cellular membrane.

The nucleus controls and regulates the cell's activities, like growth and metabolism. It also carries genes. These are proteins that contain genetic information.

Plant cell

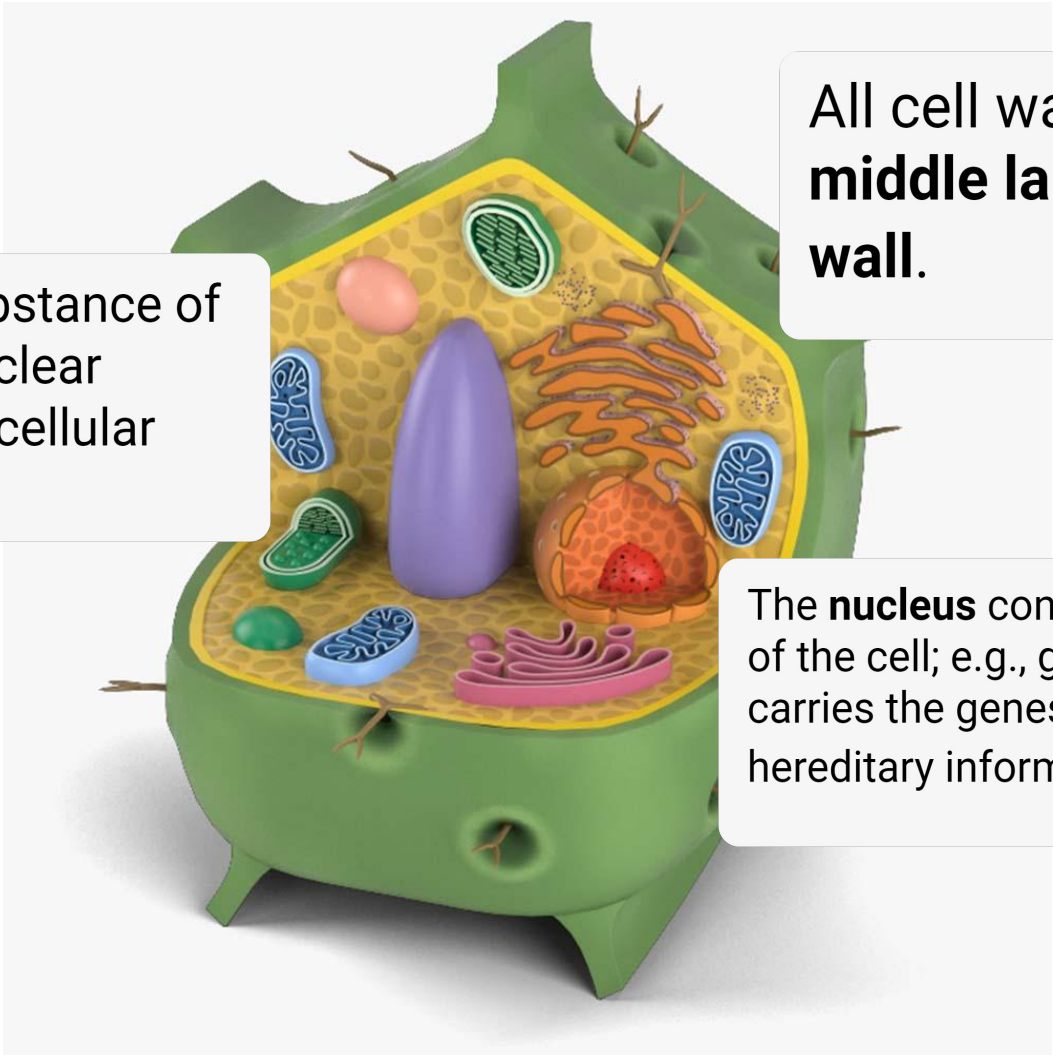

© Encyclopædia Britannica, Inc.

From research to images

Fectar supports .jpeg and .png

Information images

How and where you create these images is up to your personal preference!

Cytoplasm is the semifluid substance of a cell that is external to the nuclear membrane and internal to the cellular membrane

All cell walls contain **two layers**. the **middle lamella** and the **primary cell wall**.

The **nucleus** controls and regulates the activities of the cell; e.g., growth and metabolism. It also carries the genes, structures that contain the hereditary information.

You can use software like;

- ❖ PowerPoint, Photoshop
- ❖ Free open source software like Gimp.
- ❖ Web based software like befunky.com

Fectar MeetUp

Remote Teaching

Anywhere in the world
with any device!

Supported Smartphones

More than **1.5+ billion devices** support Augmented Reality
Starting from the iPhone 6s (2015), Samsung S7 (2016) and iPad's (2017)

Make the first steps

Innovative AR & VR building tool for all levels of experience.

Students

- ❖ Are actively working with tools they need for future jobs
- ❖ They learn about the subject
- ❖ Learn how to work and think in 3D space
- ❖ Students can work together
- ❖ Easy to use for everyone and challenging enough for the more advanced students

Academic Institutions and Teachers

- ❖ An easy-to-use system for student recruitment or internal use
- ❖ Option to let students work from home with their own devices
- ❖ Check your student's work
- ❖ Give your students a head start in the competitive job market

VR/AR CLASSROOMS

TEACHERS & STUDENTS

Use Fectar and Fectar Studio in Education

More than 6 million downloads worldwide

www.Fectar.com

Structure

Teachers and Students

- Classroom is a teacher with 6 or more students
- Teacher has access to the accounts of the students
- Teacher can transfer learning material to student accounts
- Teacher can share 3D models and more with students
- Students can not access the account of the teacher or other students
- Partner organisations can also help for first and second line support

Pricing

Teachers and Students

Classroom with one teacher

# Students	6	12	18	24	30
